

## Line of March Of Big Parade Is Announced

Everything is ready for the monster parade as we go to press with the Daily Herald. A last-minute conference with Mr. Jessup, in charge of the affair elicited the following information that will be appreciated both by participants and the public generally.

The divisions of the parade will form at the school house promptly at 4 o'clock and will be assigned places in the parade by Mr. Charles Stock, whose services as parade master last year were so thoroughly appreciated that he has been asked to again take charge.

In forming the parade the order published in yesterday's Herald will be observed and citizens with auto or floats decorated with flags and banners are especially invited to take part. The line of march as outlined is as follows:

Assemble at High school, thence down Carson to Cabrillo, Cabrillo to El Prado, El Prado to Sartori, Sartori to Marcellina, Marcellina to Cravens, Cravens to Cabrillo, where Queen enters Fiesta grounds and parade disbands.

### Thousand Autos Parked

To estimate the number of persons attending the fair last night for comparison with that of last year, a check of the automobiles parked near the fair grounds was made, with the result that the astounding number of 1032 machines were found within a radius of two blocks of the exposition grounds. This far exceeds the number on any night last year and indicates that the attendance for the week will be more than double that of any former year.

## ADDITIONS TO AMUSEMENT PROGRAM

**Wild West Show Arrives—Airplane Stunts Daily**

If the average visitor to the fair gets goggle-eyed watching the various events, both on the ground and in the air it will be the fault of the entertainment committee for the latter, not content with the splendid program of music, dancing, etc., has now enlarged the list of entertainments by the addition of a real Wild West show and the antics of two airplanes.

One of the planes, a two-seater, is in charge of "Ace" Braguinier, a noted French war flyer, who, though but 21 years of age, has been successfully flying for more than six years. The other plane, a three-seater, is piloted by a veteran of the air, J. E. Hart.

Following the parade this afternoon, Miss Gladys Ingle of Torrance will astonish the crowds by doing stunts in the air, including the most hazardous of all, wing-walking. Saturday evening the sky for miles around will be lighted by fireworks set off from both planes. During each afternoon now, and to the close of the fair these intrepid aviators will perform stunts about the fair grounds, and visitors are assured of thrills galore.

Due to the unremitting efforts of the fair committee, coupled with the personal work of C. M. Inman of the Rock Bottom store, the Wild West show now engaged in giving daily Rodeos in Los Angeles, have moved "bag and baggage" to Torrance and have erected an enclosure on the grounds next to Fess' grocery, where daily performances that will bring joy to the heart of the youngsters of Torrance and vicinity, will be given. Mr. McGowen, manager of the troupe of Indians and cowboys, is an old friend of Mr. Inman and has entered into the spirit of the affair heart and soul and the advent of his painted warriors is considered one of the chief features of an amusement program that has no equal in any of the many fairs given in this part of the country.

Mr. and Mrs. Edwin Dilthey, Misses Elva and Ethel and Master Gene Dilthey, were guests of Rev. and Mrs. F. A. Zeller Tuesday evening. The Diltheys are now living in Los Angeles, but formerly lived in Riverdale. They are all musical artists and at different times recently have furnished radio concerts that were much appreciated. They have also done considerable chautauqua work and are then advertised as The Musical Dilthey Family. The Torrance Boy Scouts have secured these players to give a concert here in the very near future.

What we've never been able to understand about civilized man is why he cuts down trees to build a city and then plants trees to build a park.
